## A Message from our CEO

We're energized by the momentum across our organization and grateful for the continued support of our customers, partners, and team members. Early this year, we've focused on turning strategy into action and are already seeing positive results.

This quarter, our emphasis has been on consistency, execution, and refinement. Investments in our people, equipment, and processes are strengthening operations, improving efficiency, and elevating the level of service we provide.

Our team remains our greatest asset, with strong engagement, improved workflows, and a shared commitment to quality. Ongoing training and process improvements are helping us work smarter while maintaining high standards.

Customer experience remains at the center of everything we do. We value your feedback and appreciate the trust you place in us.

We're confident in our direction and excited for what's ahead. Thank you for your continued support and partnership.

## “The Scoot Grandeur”

We were honored to be part of The Scoot, a unique new apartment community where boutique hotel style meets the comfort of home. Located where Cudahy charm connects with Milwaukee culture, this thoughtfully designed development features high-quality finishes and modern amenities. The team at KG Stevens was proud to provide the stone surfaces and countertops that help bring these beautiful spaces to life. Inspired by the historic interurban rail line that once connected the area, The Scoot offers residents a modern and distinctive living experience.

## The KG Commercial Team

The KG Stevens Commercial Department continues to build strong momentum in 2026, driven by a dedicated team and valued partnerships. While the team experienced leadership changes in 2025, it created an opportunity to grow stronger—bringing in new perspectives, refining processes, and building a more robust team focused on delivering an exceptional experience.

We are grateful for the trust our clients place in us and the commitment of our employees who bring each project to life. With an enhanced focus on clear communication, customer service, and continuous improvement, we are confident in our ability to deliver another year of successful commercial projects and continued growth.
